

SOLDER-VAC II

COMPACT AIR CLEANING SYSTEM

Protect yourself from toxic soldering fumes wherever your job takes you. The Solder-Vac II fume extractor is perfect for removing fumes from light to medium-duty soldering applications and many other industrial and laboratory applications.

The flexible system can be set in a vertical or horizontal position, on a bench-top or on the floor.

Features:

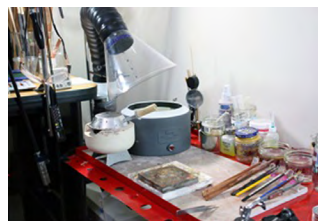

- Low-profile, light duty solder fume extractor
- White powder coated standard
- Multi-stage filtration system: pre-filter, HEPA and chemical filter
- Whisper quiet operation, less than 52 dBA
- Heavy gauge steel construction
- Optional digital control panel

Benefits:

- Compact, portable, 120 volt, single phase
- Capture-at-source for cleaner air
- Complies with OSHA guidelines for controlling weld fumes

Ideal Applications:

- Soldering
- Heat Bending
- Dental Grinding
- Light Welding, Sanding & Grinding
- Solvents
- Mixing Powders and Chemicals
- Wire Stripping
- Jewelry Buffing
- Many other light to moderate industrial and laboratory activities

Dual-workstation configuration
with FlexArms

SOLDERING • CHEMICAL VAPORS • BRAZING • LASER FUMES

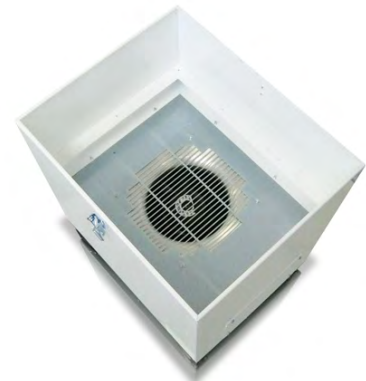

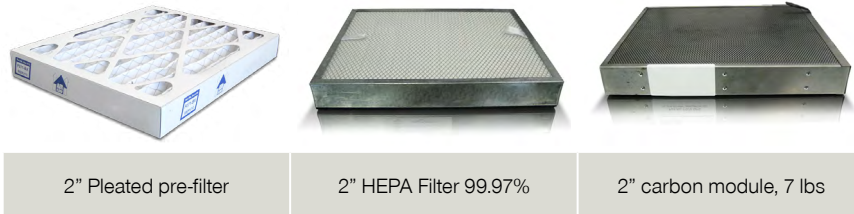

Filter Options

The Solder-Vac II fume extractors are specially designed to source capture solder smoke & fumes before they migrate throughout your work space.

Solder-Vac II has a 1st stage dust filter, a 2nd stage high efficiency HEPA filter and a 3rd stage high density activated carbon fume filter. The final 3rd stage filters are refillable with fresh carbon granules as needed.
